Independent auditor's report on review of interim financial information

To the Management of Mitsui Sumitomo Insurance Company Limited Thailand Branch

I have reviewed the accompanying statement of financial position of Mitsui Sumitomo Insurance Company Limited Thailand Branch as at 30 June 2021; the statements of comprehensive income for the three-month and six-month periods ended 30 June 2021; the statements of changes in Head Office Account and cash flows for the six-month period ended 30 June 2021, and the condensed notes ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with the Thai Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting".

These notes form an integral part of the interim financial statements.

The interim financial statements issued for Thai regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language statutory financial statements, and were approved and authorised for issue by the management on 11 August 2021.

1 General information

The principal business of the Branch is the provision of non-life insurance.

2 Basis of preparation of the interim financial statements

The condensed interim financial statements are presented in the same format as the annual financial statements and prepared its notes to the interim financial statements on a condensed basis ("interim financial statement") in accordance with Thai Accounting Standard (TAS) No. 34 *Interim Financial Reporting;* guidelines promulgated by the Federation of Accounting Professions. In addition, the interim financial statements are prepared in accordance with the Notification of the Office of Insurance Commission regarding "Rules, Procedures, Conditions and Timing Period for Preparation and Submission of the Financial Statements and Reporting the Operation of Non-Life insurance Companies" B.E. 2562 (No.2), dated 4 April 2019. The interim financial statements focus on new activities, events, and circumstances to avoid repetition of information previously reported in annual financial statements. Accordingly, these interim financial statements should be read in conjunction with the financial statements of the Branch for the year ended 31 December 2020.

In preparing these interim financial statements, judgements and estimates are made by management in applying the Branch's accounting policies. Actual results may differ from these estimates. The accounting policies, methods of computation and the key sources of estimation uncertainty were the same as those that were described in the financial statements for the year ended 31 December 2020.

Measurement of fair values

When measuring the fair value of an asset or a liability, the Branch uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the assets or liabilities that are not based on observable movement date (unobservable inputs).

If the inputs used to measure the fair value of an asset or liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Branch determines Level 1 fair values of investment in marketable equity using last bid price from SET at the reporting date.

The Branch determines Level 2 fair values of investment in debt securities by reference to the price provided by the Thai Bond Market Association at the reporting date, and for unit trusts using net assets value (NAV) published by asset management companies at the reporting date.

The Branch determines Level 3 for fair values for non-listed equity securities using the discounted cash flow method which is the last value published by General Insurance Association or net asset values of those non-listed companies.

The Branch recognises transfers between levels of the fair value hierarchy as of the end of reporting period during which the transfer has occurred.

14 Securities and assets pledged with the Registrar

14.1 The Branch's investments in deposits at banks were pledged with the Registrar in accordance with the Non-Life Insurance Act No. 2 B.E. 2551 as follows:

16 Contingent liabilities

As at 30 June 2021, lawsuits have been brought against the Branch, in relation to insurance claims in the normal course of business totalling approximately Baht 1,351.8 million (31 December 2020: Baht 1,356.3 million). The Branch's management believes that the recorded amount of provision in the financial statements for potential losses in respect of those claims is adequate.

17 Reclassification of accounts

Certain accounts in the statement of cash flows for the six-month period ended 30 June 2020, which are included in the interim financial statements for comparative purposes, have been reclassified to conform to the presentation in the current period of the financial statements. Significant reclassifications were as follows:

		2020	
	Before		After
	reclassification	Reclassification	reclassification
		(in thousand baht)	
Statement of cash flows			
Cash flows from operating activities			
Cash received from (paid to) reinsurers	(98,359)	55,799	(42,560)
Commission and brokerage expenses	(333,448)	(55,799)	(389,247)

The reclassifications have been made because, in the opinion of management, the new classification is more appropriate to the Branch's business.
