Independent auditor's report on review of interim financial information

To the Management of Mitsui Sumitomo Insurance Company Limited Thailand Branch

I have reviewed the accompanying statement of financial position of Mitsui Sumitomo Insurance Company Limited Thailand Branch as at 30 June 2023; the statements of comprehensive income for the three-month and six-month periods ended 30 June 2023; the statements of changes in Head Office Account and cash flows for the six-month period ended 30 June 2023, and the condensed notes ("interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34, "Interim Financial Reporting". My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of Review

I conducted my review in accordance with the Thai Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34, "Interim Financial Reporting".

(Pantip Gulsantithamrong) Certified Public Accountant Registration No. 4208

Notes to the condensed interim financial statements

For the three-month and six-month periods ended 30 June 2023 (Unaudited)

These notes form an integral part of the interim financial statements.

The interim financial statements issued for Thai regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language statutory financial statements, and were approved and authorised for issue by the management on 11 August 2023.

1 General information

The principal business of the Branch is the provision of non-life insurance.

2 Basis of preparation of the interim financial statements

The condensed interim financial statements are presented in the same format as the annual financial statements and prepared its notes to the interim financial statements on a condensed basis ("interim financial statement") in accordance with Thai Accounting Standard (TAS) No. 34 *Interim Financial Reporting*; guidelines promulgated by the Federation of Accounting Professions. In addition, the interim financial statements are prepared in accordance with the Notification of the Office of Insurance Commission regarding "Rules, Procedures, Conditions and Timing for the Preparation and Submission of the Financial Statements of Non-Life insurance Companies" B.E. 2566, dated 8 February 2023 which was applicable for the financial reporting period starting from 1 January 2023. The interim financial statements focus on new activities, events, and circumstances to avoid repetition of information previously reported in annual financial statements. Accordingly, these interim financial statements should be read in conjunction with the financial statements of the Branch for the year ended 31 December 2022.

In preparing these interim financial statements, judgements and estimates are made by management in applying the Branch's accounting policies. Actual results may differ from these estimates. The accounting policies, methods of computation and the key sources of estimation uncertainty were the same as those that were described in the financial statements for the year ended 31 December 2022.

The Branch has not early adopted a number of new and revised TFRS which are not yet effective for the current period in preparing these financial statements. Those new and revised TFRS that are relevant to the Branch's operations are disclosed in note 15.

3 Cash and cash equivalents

	30 June	31 December

11 Financial instruments

Carrying amounts and fair value

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value. It does not include fair value information for financial assets and financial liabilities measured at amortised cost if the carrying amount is a reasonable approximation of fair value.

Measurement of fair values

When measuring the fair value of an asset or a liability, the Branch uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly.
- Level 3: inputs for the assets or liabilities that are based on unobservable inputs.

If the inputs used to measure the fair value of an asset or liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Branch determines Level 1 fair values of investment in marketable equity using last bid price from SET at the reporting date.

The Branch determines Level 2 fair values of investment in debt securities by reference to the price provided by the Thai Bond Market Association at the reporting date, and for unit trusts using net assets value (NAV) published by asset management companies at the reporting date.

The Branch determines Level 3 for fair values for non-listed equity securities using the discounted cash flow method which is the last value published by General Insurance Association or net asset values of those non-listed companies.

The Branch recognises transfers between levels of the fair value hierarchy as of the end of reporting period during which the transfer has occurred.

Notes to the condensed interim financial statements

For the three-month and six-month periods ended 30 June 2023 (Unaudited)

Securities and assets pledged with the Registrar 12

12.1 The Branch's investments in deposits at banks were pledged with the Registrar in accordance with the Non-Life Insurance Act No. 2 B.E. 2551 as follows:

	30 Jun	30 June 2023		31 December 2022		
	Book value	Face value	Book value	Face value		
		(in thousand Baht)				
Time deposits at banks	14,000	14,000	14,000	14,000		

12.2 The Branch's investments in debt securities were reserved with the Registrar in accordance with the Notification of the Office of Insurance Commission regarding "Rates, Rules and Procedures for unearned premium reserve of Non-Life Insurance Company B.E.2557" as follows:

	30 June 2023		31 December 2022	
	Book value	Face value	Book value	Face value
	(in thousand Baht)			
Government bonds	1,890,345	1,843,000	1,926,869	1,843,000

13 Restricted and collateral assets

	30 June 2023	31 December 2022
	(in thousand Baht)	
Deposits at banks - time deposits		
To secure bank guarantee facilities issued by banks	196	196

14 **Contingent liabilities**

As at 30 June 2023, lawsuits have been brought against the Branch, in relation to insurance claims in the normal course of business totalling approximately Baht 206.8 million (31 December 2022: Baht 1,489.2 million). The Branch's management believes that the recorded amount of provision in the financial statements for potential losses in respect of those claims is adequate.

15 Thai Financial Reporting Standards (TFRS) not yet adopted

A number of new TFRS which are relevant to the Branch's operations are expected to have significant impact on the Branch's financial statements on the date of initial application are as follows:

TFRS	Topic
TFRS 7*	Financial Instruments: Disclosures
TFRS 9*	Financial Instruments
TFRS 17	Insurance contracts

^{*} TFRS - Financial instruments standards

(a) TFRS - Financial instruments standards

TFRS 9 and TFRS 7 became effective for the annual periods beginning on or after 1 January 2020. However, TFRS 4 Insurance Contracts has allowed insurance entities that meet the conditions as laid down by TFRS 4, to use the deferral approach in application of TFRS 9 and TFRS 7 for insurance entities and continue to apply Accounting Guidance: Financial Instruments and Disclosures for Insurance Business until TFRS 17 Insurance contract becomes effective in 2025.

These TFRSs establish requirements related to definition, classification, recognition, measurement, impairment and derecognition of financial assets and financial liabilities, including accounting for derivatives and hedge accounting.

(b) TFRS 17 - Insurance contracts

TFRS 17 will replace TFRS 4 - Insurance Contracts for the annual periods beginning on or after 1 January 2025.

TFRS 17 introduces the new measurement model which consists of fulfilment cash flows and a contractual service margin. The fulfilment cash flows represent the risk adjusted present value of the insurer's rights and obligations to the policyholders, comprising estimates of expected cash flows, discounting, and an explicit risk adjustment for non-financial risk. The contractual service margin represents the unearned profit from inforce contracts that the Branch will recognise as it provides services over the coverage period. The contractual service margin is earned based on a pattern of coverage units, reflecting the quantity of benefits provided. The simplified approach may be chosen to adopt when certain criteria are met.

The Branch may elect to recognise the cumulative negative impact on insurance contract liabilities from the adoption of TFRS 17 to retained earnings by applying the straight-line method within the period not exceeding 3 years from transition date.

TFRS 17 also introduces substantial changes in both presentation of the statement of financial position and statement of comprehensive income, as well as more granular disclosure requirements.

The Branch is presently considering the potential impact of adopting and initially applying those TFRSs on the financial statements.

16 Reclassification of accounts

Certain accounts in the statement of cash flows for the six-month period ended 30 June 2022, which are included in the interim financial statements for comparative purposes, have been reclassified to conform to the presentation in the current period of the financial statements. Significant reclassifications were as follows:

For the six-month period ended 30 June	2022		
	Before		After
	reclassification	Reclassification	reclassification
		(in thousand baht)	
Statement of cash flows			
Cash flows from operating activities			
Cash received from reinsurers	377,174	(23,584)	353,590
Operating expenses	(59,614)	23,584	(36,030)
		-	

The reclassifications have been made because, in the opinion of management, the new classification is more appropriate to the Branch's business.
